# 1 About This Catalog

## 1.1 Brand Introduction

Zhuhai Baoge Technology Co., Ltd. is a technology-driven enterprise focused on the R&D and manufacturing of high-end intelligent electric drive systems. Its brand, Autoro, leverages its independent R&D and technical optimizations based on the VESC architecture, committed to providing global users with high-performance, high-reliability electronic speed controller (ESC) systems and intelligent power solutions. Relying on the industrial and innovation resources of the Guangdong-Hong Kong-Macao Greater Bay Area, we promote the evolution and application of intelligent electric drive technology with sustained innovative vitality and pragmatic technical strength.

## 1.2 Purpose

To facilitate customers in quickly understanding Autoro's full range of products, core parameters, and cooperation channels, helping to efficiently match application needs.

## 1.3 Information Description

• Includes all products currently on sale; discontinued products are not listed.

• Product specifications are subject to the actual delivered product; customization support is available.

• Products can be quickly searched by classification, model, or parameter.

# 2 Product Classification Navigation

| Primary Classification | Secondary Classification | Number of Products | Key Features |
|---|---|---|---|
| Motor Drive & Speed Control System | VESC-based ESC (AESC Series) | 6 | High power, wide voltage adaptation, precise speed control; based on VESC architecture |
| | General DC Motor Driver | 1 | Wide voltage input, high output power, flexible control logic |
| Battery Management System | Multi-Channel Parallel Charging Management | 1 | Parallel charging for multiple batteries, safety monitoring |
| | Dual Power Automatic Transfer Switch | 9 | Dual power switching, high current capacity, system stability |
| | AC Dual Power Automatic Transfer Switch | 1 | Dual power switching |
| Safety Protection Components | Anti-Spark Module | 1 | Inrush current suppression, arc prevention, high safety factor |
| | Anti-Spark Switch | 2 | Inrush current suppression, arc prevention, high safety factor, switch control |
| Control & Communication Module | Wireless Communication Module | 1 | Remote control, multi-device compatibility, stable transmission |
| Accessories | Sensor Module | 1 | High compatibility, precise signal, easy installation |
| | Power Distributor | 3 | Multi-port distribution, high power capacity |

# 3 Product List

| Product Model | Classification | Product Image | Core Specifications |
|---|---|---|---|
| **Motor Drive & Speed Control System** | | | |
| V4 | VESC-based ESC (AESC Series) | | Voltage: 3-12S(12-50.4V)<br>Current: 50A cont. , 100A peak<br>ERPM:100000 |
| V6.7 | VESC-based ESC (AESC Series) | | Voltage: 3-12S(12-50.4V)<br>Current: 50A cont. , 100A peak<br>ERPM:150000 |
| V4 Pro | VESC-based ESC (AESC Series) | | Voltage: 4-12S(14-50.4V)<br>Current: 80A cont. , 150A peak<br>ERPM:100000 |
| V6.7 Pro | VESC-based ESC (AESC Series) | | Voltage: 4-12S(14-50.4V)<br>Current: 80A cont. , 150A peak<br>ERPM:150000 |
| DV6.7 | VESC-based ESC (AESC Series) | | Voltage: 3-12S(12-50.4V)<br>50A cont. per channel<br>(dual independent)<br>ERPM:150000 |

autorotech.com

| | | | |
|---|---|---|---|
| V75100 | VESC-based ESC (AESC Series) | | Voltage: 4-20S(14-84V)<br>100A cont.<br>ERPM:150000<br>Full Metal Case<br>Built-in Bluetooth module |
| AM1000 | General DC Motor Driver | | Voltage:12-36V<br>Max power：800W<br>Control Logic Voltage: 3.3-12V |
| **Battery Management System** | | | |
| AB15 | Multi-Channel Parallel Charging Management System | | Voltage:2-8S LiPo/Li-ion<br>Max Charging Current: 15A per channel (40A total)<br>Max Balance Current: 2A<br>Real-time Voltage Display |
| AB18 | Dual Power Automatic Transfer Switch | | Voltage:12-60V DC<br>Max Output Current:18A<br>Configurable Switching Voltage<br>Real-time Voltage Display |
| AB20A | Dual Power Automatic Transfer Switch | | Voltage:3-30V DC<br>Max Input Current: 10A per channel<br>Max Output Current: 10A |
| AB20B | Dual Power Automatic Transfer Switch | | Voltage: 3-30V DC<br>Max Input Current: 20A per channel<br>Max Output Current: 20A |
| AB20C | Dual Power Automatic Transfer Switch | | Voltage:5-30V DC<br>Max Input Current: 20A per channel<br>Max Output Current: 20A<br>Real-time Voltage Display |

autorotech.com

| | | | |
|---|---|---|---|
| AB20D | Dual Power Automatic Transfer Switch | | Voltage:5-60V DC<br>Max Input Current: 20A per channel<br>Max Output Current: 20A<br>Real-time Voltage Display |
| AB30 | Dual Battery Automatic Transfer Switch |  | Voltage: 5-40V DC<br>Max Input Current: 30A per channel<br>Max Output Current: 60A(Peak 150A)<br>Connector: XT30 |
| AB50 | Dual Battery Automatic Transfer Switch |  | Voltage: 5-80V DC<br>Max Input Current: 50A per channel<br>Max Output Current: 100A(Peak 200A)<br>Connector: XT60 |
| AB100 | Dual Power Automatic Transfer Switch | | Voltage:5-100V DC<br>Max Input Current: 50 per channel<br>Max Output Current: 100A(Peak 150A) |
| AB200 | Dual Power Automatic Transfer Switch | | Voltage:5-100V DC<br>Max Input Current: 80A per channel<br>Max Output Current: 160A(Peak 200A) |
| AB220 | AC Dual Power Automatic Transfer Switch | | Voltage:100-240V AC<br>Max Input Current: 10A |

autorotech.com

| Safety Protection Components | | | |
|---|---|---|---|
| AS60 | Anti-Spark Module | | Voltage:3-8S<br>Max Current: 30A / 60A<br>Connector：XT60 |
| AS100 | Anti-Spark Switch |  | Voltage:2-20S (6-84V)<br>Current: Continuous 100A (Peak 200A)<br>Full Metal Case |
| AS200 | Anti-Spark Switch |  | Voltage:2-20S (6-84V)<br>Current: Continuous 200A (Peak 400A)<br>Full Metal Case |
| **Control & Communication Module** | | | |
| BT Nano | Wireless Communication Module |  | Voltage:3.3-5V<br>Baud Rate:115200<br>Max Transmission Distance: 20m |
| **Accessories** | | | |
| AS5047P | Sensor Module |   | Voltage:3.3V / 5V<br>Supports SPI / ABI / UVW |
| XT60 Hub | Power Distributor | | 1 to 4<br>Input Connector:XT60-M<br>Output Connector:XT60-F |
| XT90 to XT60 Hub | Power Distributor | | 1 to 4<br>Input Connector:XT90-M<br>Output Connector:XT60-F |
| XT60 to XT30 Hub | Power Distributor | | 1 to 4<br>Input Connector:XT60-M<br>Output Connector:XT30-F |

# 4 Product Selection Guide

## 4.1 Selection by Application Scenario

| Application Scenario | Recommended Product Models |
|---|---|
| High-performance electric skateboards, electric vehicles, underwater thrusters | V4、V6.7、V4 Pro、V6.7 Pro、DV6.7、V75100 |
| Small to medium power DC motor drive | AM1000 |
| Parallel charging for multiple batteries (drones / energy storage) | AB15 |
| Power switching for small to medium power devices | AB18、AB20、AB30、AB50 |
| Power switching for high-power devices | AB100、AB200 |
| Safety protection | AS60、AS100、AS200 |
| Remote control / device interconnection | BT Nano |
| Power distribution / signal acquisition | XT60 Hub、T-Plug Hub、AS5047P |

# 5 Inquiry and Purchase Methods

## 5.1 Cooperation Channels

**Email Contact:**

• **Cooperation Inquiries:** Autoro.sales@hotmail.com
• **Technical Support:** Autoro.service@hotmail.com
• **In-person Meeting:** 509, 5th Floor, Zone D, Shucai Wuliu Area, No.77 Huawei Road, Xiangzhou District, Zhuhai, China (Appointment required)

## 5.2 Service Support

• **Customization Services:** Voltage, power, interface, function customization
• **Bulk Purchasing:** Tiered pricing + priority technical support
• **After-Sales Service:** 1-year warranty, product manuals, installation guidance
